# The Stories Behind the Numbers

A sampling of the lives you've brought Clarity to through your partnership

Angela\* came to us seriously considering an abortion. She was pregnant, single and said abortion was her only choice if her family wouldn't support her. (Angela came from a Christian home and feared rejection.)

Angela's client advocate shared about adoption, the realities of abortion, and the material help Clarity offers. An ultrasound was scheduled, and after praying with Angela, the advocate gave her the booklet, "Before You Decide". The following week when following up with Angela, her advocate learned that Angela had told her family about the pregnancy and was now planning to carry.

## my best for you

• "I choose to follow God's best for sexual activity because I want to be as close to God as possible." *Student*

• "What I found most helpful was how sexuality could change my feelings." *Student*

• "This workshop has said all the truths I've wanted to say but didn't know how!" *Parent*

## I decide for me

• "The program helped me by explaining how to say no to sex and setting personal boundaries when it comes to sexual choices. I will apply this to my life by not having sex and saying no to boys who try to pressure me." *Middle School Student*

• "This is the most PROFOUND and most INFORMING program that I have ever been involved with. It makes me question my life decisions and morals. I LOVED this program. THANKS! I will apply this to my life by remaining abstinent until marriage, not watch porn at all and make healthy choices for my future spouse." *High School Student*

Olivia\* came for STI testing after presenting symptoms following a recent encounter with a new sexual partner. Olivia was very upset after testing positive for Gonorrhea and Chlamydia.

Our staff engaged Olivia in a conversation about healthy relationships and reminded her of her great value and worth. Olivia was then given the book *How To Find Your Soulmate Without Losing Your Soul*. She was very grateful as she had been wanting to find a book about pursuing healthy relationships. After allowing us to pray for her, Olivia expressed her thanks for the help and support she received at the clinic.

## transformed

• "This workshop has reaffirmed to me that I need to make sure I respect the girl at all times and have a battle plan. What I found most helpful from this workshop was the scriptures about what God says sex is intended for." *Student*

• "It has definitely taken down some walls to make us all as a family more comfortable and able to discuss the topic of sex." *Parent*

• "This workshop has changed the way I will think/act in a relationship because it makes me feel beautiful without anyone telling me." *Student*

## hearts restored

"I am blessed that God brought me to the Hearts Restored study. I finally came to this study the hard way, fighting God all the way. I was choosing my path, not God's path. I am listening to God now. For the first time in a long time, I feel I am going to be OK. Maybe God is going to use my story to help others." *Hearts Restored Participant*
