

Dear Friends of Care Net,

Care Net of Central Indiana is excited to announce that we have entered into a merger agreement with Clarity of South Central Indiana, effective September 30, 2022. Together, with all current Board & Staff, we will join as Clarity of Central Indiana.

Since the overturning of Roe v. Wade, our services are needed now more than ever! Over the last year, we saw the opportunity to combine resources with another strong, healthy, like-minded organization. We realized we could make an even larger impact for the kingdom by working together. This merger will allow us to serve six additional counties, doubling the residents in our service area. We are excited at the opportunity to serve even more people with the truth that they matter!

This merger with Clarity, based in Columbus, Indiana, will allow us to collectively expand our footprint to create greater impact. Clarity currently consists of six pregnancy centers across Bartholomew, Brown, Decatur, Jackson, Jennings and Shelby Counties; a testing clinic located in Columbus; a robust education department that presents in public/private schools and churches; and a growing restoration department focused on helping women to heal from sexually related traumas. Upon merging, Care Net's three pregnancy centers and Mobile Center will be added to the current Clarity Pregnancy Services locations. Plus, we will now be able to offer even more services to our communities in Johnson and Morgan Counties. That means the work provided for 26 years in Johnson & Morgan Counties will not only continue, but grow in advancing our care to the women, babies and families we serve!

The members of our excellent Care Net Board will also be joining the Clarity Board as we continue our mission. After a number of interviews, both the Clarity and Care Net Boards extended the position of Chief Executive Officer to myself, Eric Allen, the current Executive Director of Care Net. I am humbled and excited to be invited to lead such a significant work in meeting the needs of our region. As such, my office will be moving to our Clarity business office in Columbus.

Already, so many lives have been changed because of our donors, partners, volunteers, staff and board. We are incredibly thankful for each of you! When you give of your time, talents, and treasures, you are making a difference. If you have any questions or concerns, please do not hesitate to reach out to me at 812-378-4114 or Eric.Allen@claritycares.org.

We are still here to serve our communities with hope, help and healing. Because YOU matter, and we CARE.

Sincerely,

A handwritten signature in black ink that reads "Eric Allen".

Eric Allen
Executive Director, Care Net of Central Indiana
